DiffScore

Privacy Policy

Effective 4 November 2026

PERSONAL DATA WE COLLECT

0

We have no servers, no accounts and no analytics. Nothing you do in the app reaches us.

WHERE YOUR DATA IS KEPT

1

Your iPhone, and nowhere else. The app works without an internet connection.

ABOUT THIS POLICY

DiffScore (“the app”) is an iPhone app that calculates your Playing Handicap and your Score Differential under the World Handicap System, based on the courses and tees you enter. It is made by Rogier Mulder (“we”). This policy explains which information the app uses, where that information stays, and the choices you have.

In short: the app works entirely on your own iPhone. We do not collect, receive, sell or share any information about you.

WHAT THE APP USES, AND WHERE IT STAYS

Courses and tees

iPhone

The golf courses you add in My Courses, with the name, par, course rating and slope rating of each tee. You type these in yourself; the app does not look them up anywhere.

Handicap index

iPhone

The handicap index you enter is remembered on your iPhone, so you don’t have to enter it again next time you open the app.

Round scoring

Not stored

Your Stableford points and the PCC adjustment are only used to show your Score Differential on screen. They are not saved, and are gone when you close the app.

Calculations

On your iPhone

Your Playing Handicap and Score Differential are calculated on your iPhone. The app does not submit scores to a golf club, federation or handicap system; that remains up to you.

WHAT WE DON'T DO

- No account, sign-in or registration.
- No servers: the app makes no internet connections of its own.
- No analytics, advertising, tracking or third-party code.
- No access to your location, contacts, photos, camera or Health data.
- No sale or sharing of your information.

Because nothing reaches us, we cannot see your courses, your handicap index or your scores.

BACKUPS

Like other app data, your courses and handicap index can be included in the backups of your iPhone, such as iCloud Backup or a backup on your computer, depending on your own settings. Those backups are handled by Apple under **Apple's Privacy Policy**, not by us.

DELETING YOUR INFORMATION

- Swipe left on a tee to delete it.
- Swipe left on a course in My Courses to delete it together with all its tees.
- Delete the app from your iPhone to remove everything it stored.

YOUR RIGHTS

Under the General Data Protection Regulation (GDPR) and similar laws, you have the right to access, correct and delete personal data held about you. We hold no personal data about you, but you are always welcome to contact us with a question or request. You also have the right to lodge a complaint with a data protection authority, in the Netherlands the Autoriteit Persoonsgegevens.

CHILDREN

The app collects no information from anyone, including children.

CHANGES TO THIS POLICY

If the way the app handles information changes, we will update this policy and its effective date, and mention important changes in the app's release notes.
